DETAILED ACTION

Specification

The disclosure is objected to because of the following informalities: through the specification the term "gallium nitride" should be either "aluminum gallium nitride" or "gallium nitride based" so as to clearly define the claimed subject matter.

Appropriate correction is required.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-13 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Regarding claims 1-13, it is not clear the term "gallium nitride" in the claims since it appears that there is aluminum in the gallium nitride compound as further recited in the dependent claims 2, 4, 7, 9, 11 therein. Therefore, the term "gallium nitride" should be either "aluminum gallium nitride" or "gallium nitride based" in order to clearly define the claimed subject matter.

Art Unit: 2815

R sponse to Arguments

Applicant's arguments with respect to claims 1-13 have been considered but are moot in view of the new ground(s) of rejection.
